First legal description is for the expansion of the CR district north to the line drawn by Mike, running E/W. South border would be from the green line (parcel boundary, I believe, and CR district boundary). W border is the street ROW, E border is the lake, and N border is the red line drawn by Mike.

U can speak with Mike directly if you have questions.

This legal will be for the rezoning of the parcel.

D

Hi Kelly and Sally,

We will prepare the legal description in two parts. First, I've asked Dennis to prepare a legal description for the entire area that we want to rezone from FBC to CR which will be the area south of the horizontal red line to the current CR zoned area (see attachment). Second, Dennis will prepare a legal description for the space occupied only by your facility. For that I will need a drawing with dimensions from you. Please include the launch area (Dock only) as well. Once I have that from you we will move ahead with both legal descriptions.

Also in the attachment is an area that I outline in a red dotted line as an example of the area that you should use. I made the placement randomly and if you think otherwise please let me know. I'm open to your suggestions, however, if we can stay in this area it will not impact recent improvements that we've done to the beach area to the north. Thanks.

Mike
