Figured you guys might want a look at these plans as well.

If you have any comments, please send em to me and I will get em to Mike.

Please take a look at these as soon as you can and let me know if anything stands out as being problematic.

I appreciate your prompt attention and apologize on behalf of this "rush" review for a project that has a lot of challenges.

Dennis

Good morning Mike,

Kelly asked that I email the drawings for the the Commission work session. She is stopping over to review them with you, and we are also planning on attending the August 18 meeting to answer questions, etc.

Thanks for everything and please confirm that you received this message ok.
